

JIVARO

HEIGHT ADAPTATION PACKING SOLUTION FOR ORDER PICKING APPLICATION

OPTIMIZED DIM WEIGHT FACTOR

JIVARO produces an efficient customized packing in order to address DIM weight pricing.

Our **Fully Automated Solution** greatly impacts on your shipping rates, while decreasing labor costs.

By choosing JIVARO you get an eco-friendly, reliable, cost/time/space-saving technology.

Optimise your business operations in real-time with JIVARO!

JIVARO is a parcel closing machine which adapts the height of boxes to product dimensions, in order to **reduce the size of shipments.**

JIVARO ensures, among others, secure shipping and completely automated closing of boxes.

SECURE SHIPPING

Automated closing with lidding contributes to the good parcel geometry and to its Inviolability during the transportation.

CONSUMABLE SAVINGS

Carton is adapted to the height of the products, which means that extra wedging consumables are not needed anymore.

ENVIRONMENT ASSET

JIVARO is a **concept respectful of the environment.** Thanks to JIVARO,

- optimization of truck filling; consequently, reduction in the number of trucks on the roads and in CO₂ emissions,
- easy recycling of empty cardboard,
- no plastic or other filling material to recycle.

Save up to 30% on the volume shipped!

JIVARO
