

NORDIC NEST

CUSTOMER STORY

NORDIC NEST is one of the largest distributors in the interior design industry. Founded in 2002, the company offers over 40,000 Scandinavian design products from more than 250 brands. NORDIC NEST's warehouse is located in Sweden, four hours from Stockholm and two hours from Copenhagen in Denmark.

TARGETS

- 01 Improving the unboxing experience for customers
- 02 Protecting and safeguarding fragile products
- 03 Reduce the volume of cartons and the use of filling materials

WHY SAVOYE?

- A solution that meets packaging automation requirements
- A partnership and local presence with ITO PallPack

RESULTS

INCREASE IN CUSTOMER SATISFACTION

REDUCTION IN CARDBOARD CONSUMPTION

FAST AND RELIABLE PACKAGING PROCESS

Johan TORUDD

Operations Development Manager

Thanks to the JIVARO machine, we expect to increase our parcel processing capacity without errors, while automatically customizing them.

NORDIC NEST

Specializing in Scandinavian interior design, NORDIC NEST ships its products worldwide every day from its warehouse in Sweden. Against a backdrop of sustained growth in e-commerce, the company is continuing to automate its operations to ensure ever-improving service for its customers.

To support this momentum, NORDIC NEST has chosen to optimize its packaging process in order to increase its processing capacity, reduce errors, and ensure preparation deadlines are met. In collaboration with intralogistics integrator ITO PallPack, four JIVARO and two E-JIVARO machines from SAVOYE have been deployed in the warehouse.

This equipment automatically adjusts the height of packages to fit the products as closely as possible before closing, eliminating unnecessary empty space in the boxes. This optimization improves productivity, reduces the use of packaging materials, and lowers transportation costs, contributing to more sustainable logistics. Thanks to the JIVARO 4-storage configuration, the installation also offers the flexibility needed to handle a wide variety of items.

With this investment, NORDIC NEST is strengthening its operational performance and its ability to offer fast, careful, and responsible delivery.

NORDIC NEST is optimizing its logistics to support its e-commerce growth and ensure an ever-improving customer experience.
